CAMPAIGN FOR  
HUMAN  
DEVELOPMENT

**ST. PAUL YOUTH SERVICES**  
REWRITING THE RULES OF YOUTH ENGAGEMENT

**St. Paul Youth Services (SPYS)** received its first-ever grant from the [Catholic Campaign for Human Development \(CCHD\) in FY 2020-2021](#). The grant was for \$50,000.

[SPYS's website](#) indicates that it was established 45 years ago, as a joint project of the City of Saint Paul and the Saint Paul Police Department. It is a youth program ostensibly designed to keep kids in school and out of prison. Unfortunately, SYPS is very active in promoting homosexuality and transgenderism to those very same kids and its executive director promotes homosexuality, birth control, Planned Parenthood, and transgenderism.

### **SPYS Direct Support for Homosexuality and transgenderism**

In 2017, SPYS created a video on the use of preferred pronouns for self-identified "transgender" kids. The video is a clear propaganda piece intended to generate acceptance of sexually deviant behavior. [This is the original link to the video](#), but we've uploaded the video to YouTube, in case the link here disappears.

[embedyt] [https://www.youtube.com/watch?v=\\_G5rAxivNRw](https://www.youtube.com/watch?v=_G5rAxivNRw)[/embedyt]

On SYPS web page titled "[Transform Institutional and Cultural Practices](#)," SPYS admits to its intention to change minds on homosexuality through training exercises:

**"Each year, we partner with organizations and train and coach** educators, police, and staff from nonprofits and public agencies on how to create organizations that are truly youth-centric, especially **in terms of transforming their practices and environments to be more effective**

**and welcoming for** youth of color, **LGBTQ youth**, immigrant youth, and/or youth who have experienced trauma and/or poverty."

This point is reiterated on its [Public Policy Page](#), where it states that SPYS works "with elected officials and public agencies to assess the impact of policies on ... LGBTQ youth."

On SPYS' webpage headlined "[Our Approach and Services](#)," SPYS spells out that it produces workshops directed at adults in the hopes of breaking down barriers to "LGBTQ youth." It says:

### "IN THE COMMUNITY

**Workshops & Training** SPYS provides trains leaders and staff of nonprofits and public agencies who work with youth - whether by mission or circumstance - with the power to directly or indirectly influence youths' lives. SPYS also offers a training course for individual community residents who want to build positive relations with youth in their community or neighborhood and start a local program to engage youth and introduce them to new skills and interests. **All of SPYS' workshops and trainings give adults a better understanding of youth developmental needs, the systemic barriers youth face** (especially youth of color, youth living in poverty, and **LGBTQ youth**), and practical skills, confidence, and motivation to more effectively engage with young people."

And this approach to promoting sexual deviancy among the youth is on bold display on its social media pages.

In [June of 2016](#), SPYS boldly proclaimed that it "stands with" "our beloved LGBTQ+ youth."

On [June 28, 2016](#), SPYS posted on Twitter "Love and support for LGBTQ+ youth at #TCPride!"

In [December 2021](#), SPYS posted about its interest in "organizations transforming their practices and environments to be more effective and welcoming for ... LGBT Youth."

In [June 2016](#), SPYS encouraged young people to participate in an LGBT arts festival.

In [December of 2020](#), SPYS tweeted out its pro-lgbt video from 2017 (mentioned above).

The same video was promoted again in [February of 2022](#).

Given this evidence, there is no denying the fact that SPYS is directly promoting and encouraging LGBT ideologies. But this shouldn't be surprising, considering the gravely immoral ideologies of its executive director.

[SPYS indicates right on its website](#) that Tracine Asberry is the executive director for the organization.

## DR. TRACINE ASBERRY

EXECUTIVE DIRECTOR

Our community benefits when we learn to listen to, work with, and guide young people to a more productive path rather than force them out, lock them up, deport them or deny them a comprehensive education. SPYS' board and staff have long been leaders in this work. I'm thrilled to lead an organization that champions early intervention, shares strategies, and achieves healthy outcomes for youth.

Asberry has a long history of promoting Planned Parenthood and birth control on social media.

In [January of 2017](#), Asberry wrote a long post calling upon Minnesotans to "March with Planned Parenthood!"

In [July of 2014](#), Asberry expressed her displeasure at the SCOTUS ruling in favor of Hobby Lobby against the birth control mandate in Obamacare, saying: "It's truly dangerous that five Justices on the Supreme Court have taken decisions about birth control coverage away from women and their doctors, and handed them to bosses."

Two days ago, the Supreme Court handed employers the power to deny women coverage for birth control. The outcry was immediate and extraordinary: thousands of people like you stood up and shouted the truth, that birth control is not our bosses' business.

So far, 105,095 of us have spoken out and joined the dissent, standing with Justice Ginsburg. But I'm not sure corporations like Hobby Lobby — or the five Justices who ruled against women — heard us. So let's get louder. Help us reach 150,000 dissenters by adding your name now.

It's outrageous that we're still fighting to have basic preventive health care covered by insurance. It's truly dangerous that five Justices on the Supreme Court have taken decisions about birth control coverage away from women and their doctors, and handed them to bosses. But I'm not done fighting back, and I know you're not either. Join the dissent now.

Thanks for standing up for women's health.
