The leadership of United Latinos is so corrupt, its unbelievable that it was ever able to receive a CCHD grant at all. Whomever was responsible for vetting this organization didn't even conduct the most basic background check and employer would do on a prospective employee.

The vice president of United Latinos is Josie Morales, and her bio on the United Latinos website identifies her as "Capitana of the National Brown Berets Sacramento Unit."

The [Brown Berets are a Marxist paramilitary organization](#) founded in 1967 and modeled after the Black Panthers.

In addition to being an officer in a Marxist paramilitary outfit, Morales actively promotes abortion and LGBTQ ideologies.

In a gross display of inhumanity, Morales celebrated the death of Queen Elizabeth on [September 8, 2022](#).

On [July 19, 2022](#), Morales called for people to help her boost enrollment to a class she was taking on LGBTQ studies. She indicated that the class would focus on "LGBTQ/queer experience in American society" by examining terminology and theory, "U.S. LGBTQ/queer history," and " art, politics, and culture of LGBTQ communities."

Posted @withregram • @916nationalbrownberets "hi ARC and Los Rios colleagues! I need some help boosting enrollment for my course this fall (as I realize many of you do!) It's the only Intro to LGBTQ Studies course offered at ARC, and only one of two such courses offered in the Los Rios district. I want to make sure it sticks, so I would very much appreciate some helping spreading the word! Thank you!

This semester, Professor Sara Smith is teaching Social Justice 310: Introduction to LGBTQ Studies as a hybrid course. The class meets once per week in-person, from 1:30-2:50 pm. on the ARC campus. The section number is 19261.

What is the class about?

It's an interdisciplinary course focused on the LGBTQ/queer experience in American society. It's divided into three units. The first short unit focuses on terminology and theory. The second unit consists of several weeks and is focused on U.S. LGBTQ/queer history. For the third unit of the class, which also lasts several weeks, we focus on art, politics, and culture of LGBTQ communities. For instance, one entire week is focused on queer music, another on queer immigration, and another is focused on queer and trans representation in TV and movies.

The class approaches the subject through an intersectional lens, making sure to highlight race, class, and disability as they intersect with gender and sexuality in the experiences of queer and trans people in the U.S.

The main assignments are: 1) discussion forums every 2 of 3 weeks; 2) an oral history assignment in which you listen to or watch short interviews with people involved in queer history in some way; 3) and a queer literary assignment that involves you reading a memoir or novel of your choice and writing a short 3-4 page book review essay about it. There are no big exams and no small quizzes. And all of the required reading is provided free of charge!

If you know anybody who might be interested in taking the class, please spread the word! The course was first offered in the Spring of 2020, and it's the *first-ever* course in LGBTQ studies offered at ARC. "

If you have any questions, don't hesitate to email Professor Smith at sara.smith@arc.losrios.edu.

PROFESSOR SARA SMITH

This hybrid class meets in person every Thursday from 1:30p-2:50p At ARC Main Campus in Davies Hall, Room 219.

The rest of the coursework can be done from the comfort of your own home!

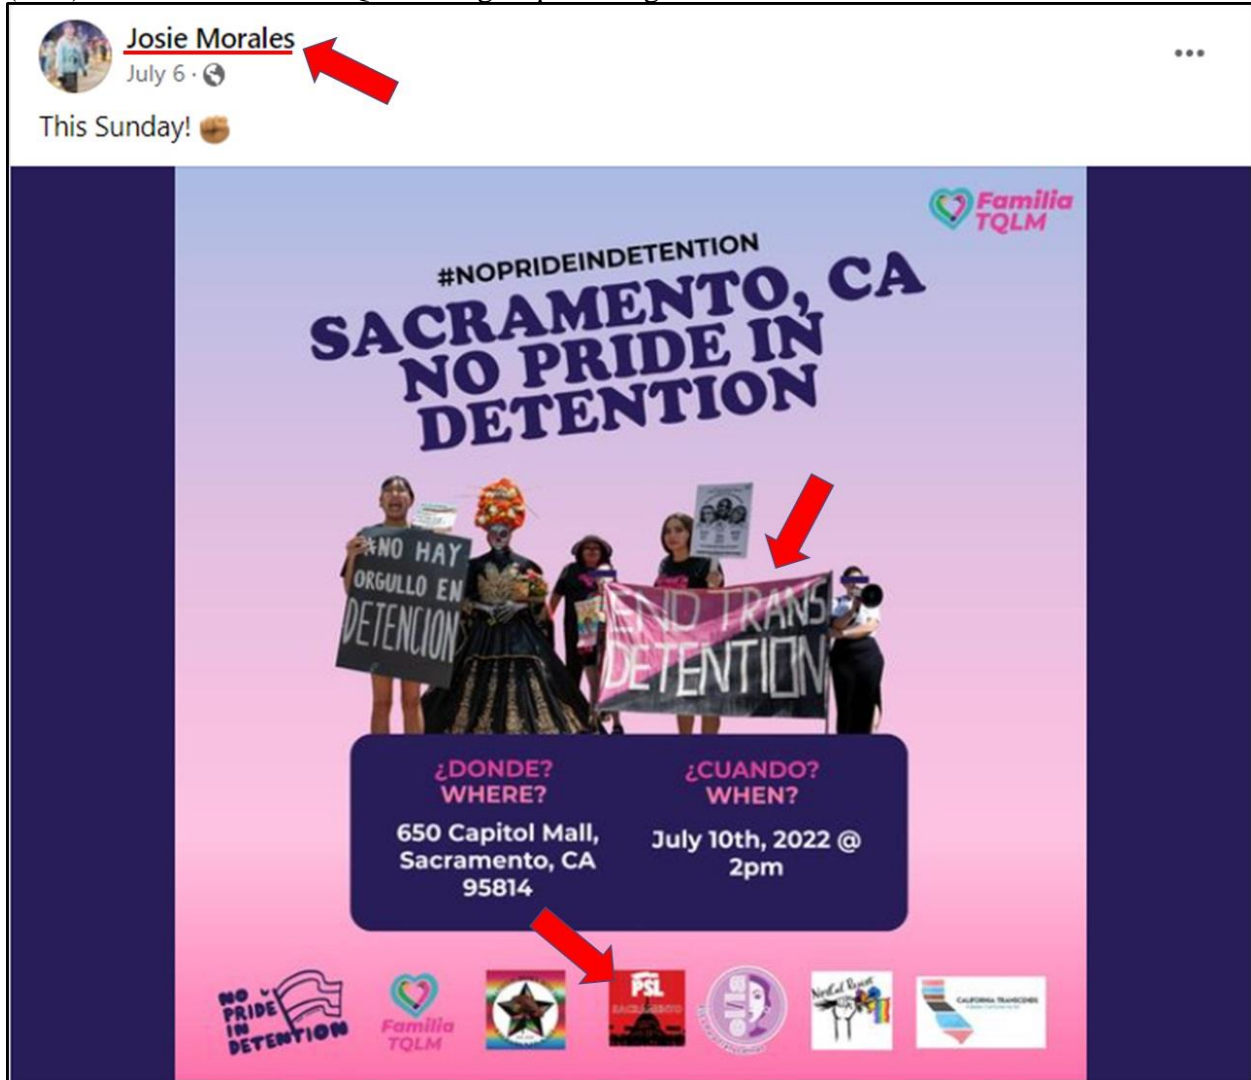

This course focuses on the histories, lives, and cultures of queer/LGBTQ+ communities. It is divided into three units: 1) terminology and basic theory; 2) queer history; and 3) politics, culture, and a little theory. We begin by considering basic terms and theory essential for doing well in the course. We then turn to queer history of the US, which is essential to understanding current queer culture. This examination is through an intersectional lens, which centers race, ethnicity, class, and ability alongside gender and sexuality. Finally ending with a focus on politics, culture, and art.

ENROLL TODAY!

On [July 6, 2022](#), Morales promoted an event hosted by the Party for Socialism and Liberation (PSL) and a host of LGBTQ activist groups calling for the end of "trans detentions."

On [June 24](#), the day the Supreme Court overturned Roe v. Wade, Morales called for "aborting

the Supreme Court," because "abortion is healthcare ... you f---ing jerks!"

Conclusion

One of the highest ranking persons in United Latinos is a Marxist who promotes abortion and LGBTQ ideologies. And as the leadership goes, so goes the organization.
